Benefits of Attending:

Indian Society for Clinical Research (ISCR) is pleased to announce its 12th annual conference in Delhi on 14th to 16th February 2019. The 2019 edition aims to bring the clinical research community together to learn, connect, and explore opportunities to drive excellence in clinical research. The 2019 conference program of the Indian Society for Clinical Research has been crafted to focus on various clinical trial reforms towards building future research enterprise as well as discussions on emerging research opportunities in India. It is the ideal venue for learning the best practices, creative solutions and “learning through doing” by participating in our workshops and conference sessions on what can be done more for patient safety and data quality and improve the overall Research enterprise. The conference will be attended by over 500 delegates from medical institutions, ethics committees, biopharmaceutical industry, government, patient organizations and clinical research organizations.
